CLERKS OFFICE

Colleen Marie Hardacre  
Plaintiff,

2005 MAR 22 P 3: 03

U.S. DISTRICT COURT  
DISTRICT OF MASS

V.

05 - 105

Federal Bureau of Investigation,  
U.S. Department of Justice,  
and/or any other law enforcement  
agency not yet disclosed,  
Defendants.

Motion for Temporary Restraining Order

The Plaintiff, Colleen Marie Hardacre, hereby requests that this Court grant a Motion for Temporary Restraining Order against the Defendants, Federal Bureau of Investigation + U.S. Department of Justice, et al. Hereinafter "FBI" for the reasons as stated in the Complaint attached hereto as Exhibit "A" and for the following reasons:

(1)

- 1) The Plaintiff has been subjected to ten (10) years of constant 2 million times per year chemical provoke of noise, fight & fear. After 4 years or 1999, the Plaintiff's pelvis & smooth & skeletal muscle was permanently abnormally contracted & she was suffering it in much pain ever since from provoke response.
- 2) The FBI's love of noise, fight & fear produces massive amounts of harmful provoke response chemical. These chemical gradually & cumulatively keep contracting & changing all that abnormal levels of adrenaline change in the body.
- 3) By 1999 the Plaintiff's entire pelvis, bowel, bladder & vaginal muscles were abnormally contracted by FBI tactic.
- 4) The FBI has chosen to continue to get away with this for 5 entire more years causing worsening pathology each year as follows:  
 1999+ Complete contraction of bladder, bowel,  
 2000! Vaginal muscles, spasms, burning, difficulty going to the bathroom, having periods through contracted muscles, stopped periods for awhile.

difficultly sitting up

- 2001: Muscle contracted. FBI tactic of noise, fight & fear intolerable. Unable to stand intercourse & bleeding afterwards. ERMO showed contraction when supposed to be relaxed. Pap smear normal. Next year not.
- 2002: Worsening tightening & intolerable pain. Began bleeding constantly 6/02 - 4/03. FBI continued to noise & fight to construction & literally squeezed blood out of me & provide adrenaline & said "we know & we don't care". Biopsy showed proliferative cells.
- 2003: Felt tear in rectal lining from tension followed by gas cramping & fever. Healed in few weeks. D&C 3/31/03 to remove tissue stuck in uterus from contraction from federal provide. Feds continued to provide. Disabled & pelvic & chest pain 6/03
- 2004: At rest tension became intolerable. Begging, crying. Unable to sit up, drive on bumpy. Felt bladder & rectum tear in 7/04. Vaginal wall tear 11/04.

Q

2005!

Waiting for another tear. Tension intolerable everyday + agents keep contradicting C noise + fight for medically ignorant excuses.

- 5) The FBI used provoke to train me to react at cues usually perceived as normal with more adrenaline. Their now 51 year effort & excuse has been "We, agents" don't understand why you get more adrenaline at our cue of provoke 2 million times per year, so we'll provoke you now 10 million more times, each pulling my pelvis cumulatively tighter to force tape that I pulled at a provoke session 5-10 x 5 years ago."
6. It is unexcusable for any law enforcement agency to harm someone's body on purpose to force tape to lie about a science 20 million times. Someone has to stop the FBI.
7. The FBI is lying about science & not chasing an actual crime of mine.

8. These issues are humanely solvable with  
experts & attorneys & the FBI should  
know better than to subject any U.S. citizen  
to pain or purpose & provoke all day  
& keep them obstructed from law & legal  
medicine so the citizen can't prove what's  
really going on. What's really going on  
is I am suffering from prostate response  
chemical when & how the FBI forced  
me to do million times now. They would  
like to blame me & suppress this science,  
so they won't stop.
9. The FBI has torn organs & linings in my  
pelvis & needs to be stopped. There is  
nothing they are doing that cannot be  
done & lawyers, experts & judges  
presiding their antics. Their behavior  
is negligent, malicious & barbarically  
inhuman.
10. Teasing a bladder, vagina & smooth  
muscle in a pelvis is not a privilege of  
any FBI agent with prostate adenoma  
anywhere in the U. S. I was informed 3/21/05  
that I have atypical cells on pap smear & need another biopsy  
possible T4 & may have cancer. The FBI's prostate adenoma  
(4) constricts the lining of the uterus  
& vagina & needs to be stopped. They  
caused this.

11. The Plaintiff fears the FBI will  
again damage her pelvis & possibly  
tear my bladder, bowel or vagina with  
adrenaline & therefore need to be stopped.
12. If anyone saw or knew what the FBI  
was professing v. what science was really  
going on, my agents would be in prison  
years ago & deserve a sentence for this &  
all their cruises & themes.
13. The Plaintiff hereby requests that Court  
force the FBI to cease & appear for  
Resolution of all issues for fear of  
bodily injury from poison chemicals.

Respectfully Submitted,

Colleen M. Nardone
